DIFFICULT SHIPMENTS

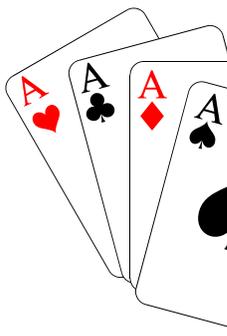

Do you have difficult shipments? We can help. We are able to accommodate inside deliveries, appointments, uncrating, debris removal, provide labor teams and whatever else you may need to make your shipment's delivery a success.

QUOTES IN SECONDS

Call us any time any day for a Fast Quote or email us at getquote@trumpcardinc.com. We guarantee you will receive a timely response with an accurate quote that you can count on! No hidden fees!

What is not surprising is that *TrumpCard's* attention to detail, quality and safety has never been compromised by volume. Our mindset is quite clear, "We are simply the best at what we do".

NEWSPLETTER
Celebrating Cinco de Mayo

VIVA!

On May 5th in celebration of Cinco de Mayo, your driver will deliver...

Chips & Salsa

to the shippers of that day. Ship on May 5th and enjoy!

WE NEVER SLEEP

We're here when you need us. At *TrumpCard* we're not your typical 9-5 carrier. We offer our customers 24 hour support and pickup availability 7 days a week. We're constantly available to provide you the service you need to meet all your 'after-hours' needs. Whether its late night pickups, weekends or holidays - we work around the clock to help you.

TSA CERTIFIED

Trump Card is proud to announce that we have been validated by the TSA as a Certified Cargo Screening Facility (CCSF). This gives Trump Card customers a significant advantage when shipping their time sensitive and high value products by air. When using Trump Card, your shipment will be pre-screened prior to airport arrival and will not be subject to further airport screening that can result in delays and other supply chain disruptions. This certification also allows us to handle chain-of-custody transport to the airport for those shippers who are also certified. Please visit us at www.trumpcardinc.com or contact us directly for more details and information.

ACE ACCOUNT OFFERS VISABILITY & ORGANIZATION

Many of you have already enjoyed the features and benefits of *TrumpCard's* online system. It allows authorized users to schedule pickups, print labels, track shipments, obtain POD's and keep electronic records of all of their shipments. The newest feature available to this system is the ability to have multiple users on a single account. There are various levels of security and visibility based on the Ace Account Manager's preference. As an Ace Account Manager, you are now able to manage various users and monitor their shipping activities. Many customers are finding this feature beneficial when managing their inbound and indirect shipments. If you would like to take advantage of this new feature, please contact your local account representative today.
